Review of Books

An overview of the UFO mystery, written by the man who used to run the British Government's UFO project.

This is a true insider's account of the phenomenon, and lifts the lid not just on classic cases like Roswell and the Rendlesham Forest incident, but on less well known cases too.

This groundbreaking and highly controversial book highlights cases from the US, the UK, and the rest of the world, and Nick draws on his first-hand government experience to reveal what the authorities really know and think about UFOs, alien abductions, crop circles and animal mutilations.

Open Skies Closed Minds was featured on Newsnight, serialised in the Daily Mail and reached number three in the hardback non-fiction list, staying in the top ten for ten weeks. Biographie de l'auteur

Author, journalist and TV personality Nick Pope used to run the British Government's UFO project at the Ministry of Defence, and is now recognised as one of the world's leading experts on UFOs, the unexplained, conspiracy theories and fringe science. Nick Pope lives in America.
